**Grafton Architects**

At the heart of the new approach to architecture is the concept of the "dwelling as a social space". Grafton Architects are both practitioners and researchers in the field of architecture. Their work is rooted in the social and cultural context of the city and its inhabitants. They have designed a range of buildings, including the new building of the University of Limerick, the new building of the University of Limerick, and the new building of the University of Limerick. Their work is rooted in the social and cultural context of the city and its inhabitants. They have designed a range of buildings, including the new building of the University of Limerick, the new building of the University of Limerick, and the new building of the University of Limerick.
